

DATASHEET

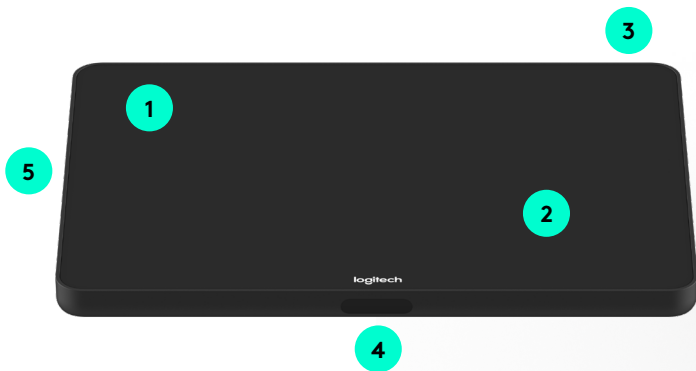

Logitech Tap

Deliver one-touch join, calendar integration, instant content sharing, and a consistent experience across meeting rooms. With a sleek design, silent operation, and motion sensor for always-on readiness, Tap brings ease and convenience to video collaboration.

Meeting room touch controller for video conferencing room solutions

More than just a meeting room touch controller, Logitech Tap is what helps you achieve a consistent user experience across your entire deployment.

Boasting a spacious 10.1" touchscreen, low-profile enclosure, and multiple mounting accessories, Logitech Tap delivers a sleek appearance and convenient placement options that support a wide range of room sizes and layouts. And with its HDMI input¹, content sharing is instant and effortless. Wireless content sharing is also available depending on your chosen video conferencing service.

- 1 **One-touch join:** Easily start and join meetings with just one tap.
- 2 **10.1" touch display:** Spacious and responsive touch screen resists fingerprints and glare for high legibility and easy operation.
- 3 **Sleek, low profile:** Comfortable 14° angle allows for easy viewing, while providing an unobtrusive presence in the room.
- 4 **Always-on readiness:** Built-in motion sensor saves power when idle, and powers on when a person approaches.
- 5 **Headphone jack:** Extends the host computer's wired audio capabilities to the tabletop, ideal for private conversations and for the hearing-impaired.
- 6 **Dual cable exits:** A sturdy metal cover with removable bottom and rear exits keep cables tidy and secure.
- 7 **Clean cable management:** Built-in cable retention and strain relief system hides the cable entirely within its enclosure, and secures it to prevent unwanted disconnections.
- 8 **USB accessory port:** Connect an accessory such as a USB speakerphone.
- 9 **HDMI input for content sharing:** Provides instant wired content sharing when used with Google Meet, Microsoft Teams Rooms, and Zoom Rooms¹.
- 10 **Anti-theft protection:** Keep Tap securely in place by connecting a security cable to one of the two Kensington lock slots, one on the bottom and another at the back.

Enterprise ready

Clean installation

Flexible cabling lets you locate Tap near participants for convenient operation while installing the host computer in a cabinet, beneath a table, or behind a display.

Multiple mounting options

Secure Tap flat to the table, raise the viewing angle, or mount it on the wall to conserve space, minimize cabling, and optimize the user experience.

Room solutions with Logitech Tap

Easily deploy video meetings with pre-configured Logitech room solutions for Google Meet and Microsoft Teams, which include everything you need — Tap, a conference camera or video bar, and PC compute — to start building meeting rooms of virtually any shape or size.

Find your perfect match

Tap works seamlessly with Logitech's lineup of PC-based video bars and modular systems for small, medium, and large rooms.

Laptop link for meeting rooms

Add bring-your-own-device versatility with Logitech Swtch, a convenient way to use the room's display and conference camera with any video meeting or webinar application.
